

Practise: Angles and Parallel Lines

In this diagram,

- the diagonal line is a _____
- _____ and _____ are equal because they are opposite angles (X pattern)
- _____ and _____ are equal because they are corresponding angles (F pattern)
- _____ and _____ are equal because they are alternate angles (Z pattern)
- _____ and _____ add to _____° because they are co-interior angles (C pattern)

Find the measure of each angle marked with a letter in these diagrams.
