

Tuesday, May

The following is to be completed and passed in by May 8th

- **Please note:** I will be collecting your work at the end of the task and expect to see the following (you will be marked on this):
- Each section of work (mini-lesson, examples, sets of questions/answers, etc.) must be properly labeled.
 - Work showing that you tried each of the examples requested
 - Answers for each question (not just the final answers!! Show work where possible!)
 - It should be clearly visible that your work was corrected and some questions were done over.
- It is necessary that you stay on task and not be disruptive during class time. There will be “guided learning” going on throughout each class (I will be working with a few students at a time, going over class material). The rubric below (#1 specifically) will reflect your effort to cooperate. This is very necessary in order for guided learning to take place.

- Tidy up the rest of TASK and hand into the grade 9 basket at the back of the room.

Please make sure to go through the "Checklist" below before handing in your task!

Item	Description	Checklist	Evaluation
1. Work ethic	Worked quietly and independently without disrupting other students. Stayed on task and used class time effectively. Points will be deducted if you are not using class time effectively.		/5
2. Introduction to Linear Inequalities (Part 1)	Mini-Lesson #1: Linear Inequalities. You are required to pay attention, ask questions, and take notes.
